

Filter Cages For Ensuring Proper Bag-to-Cage Fit

Proper bag-to-cage fit is paramount in obtaining the longest possible service life. Micronics is able to provide almost every cage style available and reviews every order to ensure optimum bag-to-cage fit. One of the latest advancement in cage design options incorporates “star rings” to reduce the amount of contact area between the bag and cage.

We'll deliver on-time to meet your outage schedule, and can provide all the baghouse parts and accessories you will need for your maintenance and repairs. Short-handed, or simply too much to do? Call on the Micronics Engineered Filtration Group full-time service personnel and let us take care of your mechanical installation and repairs.

Cages are fabricated from:

- 304 Stainless Steel
- 316 Stainless Steel
- Galvanized Carbon Steel

Connection Styles Include:

Twist-lock

Slidelock

Fingerlock
