

**PRESS RELEASE**

**The Micronics Engineered Filtration Group Welcomes Jeremy Borgman as Its New  
Director of Business Development – Field Services**

Chattanooga, TN, USA – September 27, 2022 – The Micronics Engineered Filtration Group is pleased to announce that Jeremy Borgman has joined the team as the Director of Business Development – Field Services.

“I am excited to welcome Jeremy to our team. Jeremy’s skills, strong focus on delivering value to customers with both product and service offerings, and overall solutions-orientation, are well-aligned with Micronics’ vision and mission,” said Jason Wettstaedt, Senior Vice President, Sales & Marketing for the Micronics Engineered Filtration Group.

“For over 15 years, I have competed with Jeremy in the marketplace. Having Jeremy’s talent and experience as part of the Micronics Engineered Filtration Group and its strong family of filtration brands – CPE, UPC, SFM, NFM, Filterfab, and Micronics - will help to further grow the filtration solutions that we provide to even more effectively serve our customers across diverse and demanding industries,” Jason added.

VP of Dry/Baghouse Services, Mike Schmidt additionally commented, “Jeremy brings another dimension of knowledge of the filtration industry to our team. Jeremy’s experience in building, growing, and managing a service organization will help to strengthen our already best-in-class dry filtration field service business.”

Jeremy previously served as GM, Environmental Services, Chief Operations Officer, and President of BWF Envirotec, USA. Jeremy received both his Bachelor of Business Administration and his MBA in Strategic Management from Davenport University in Michigan.

**About the Micronics Engineered Filtration Group**

The Micronics Engineered Filtration Group is a trusted family of industry-leading filtration brands – Micronics, SFM, CPE, UPC, NFM, and Filterfab, - providing Total Engineered Filtration Solutions, globally.

The Micronics Engineered Filtration Group serves customers’ advanced filtration needs in mining and mineral processing; energy, power generation; industrial; battery recycling; chemical manufacturing; pigments and dyes; food and beverage; steel and iron processing; aggregates, cement and asphalt; aluminum; pharmaceutical and biotech; and water/wastewater treatment. We are committed to our customers’ success.

Micronics has been a portfolio company of Vance Street Capital, a Los Angeles-based private equity firm, since 2013.
