

FILTER PRESS CLOTH

**For Optimizing
Your Mine's
Filtration Operations**

PROVEN FILTRATION PERFORMANCE IN THE TOUGHEST MINING CONDITIONS.

We are proud to deliver advanced filtration solutions for Mining & Mineral Processing, helping improve efficiencies, reduce costs, and contribute to environmental protection.

- Filtering of Abrasive Slurries
- Mine Tailings Management Solutions
- Dewatering Mineral Concentrates
- Merrill-Crowe Process

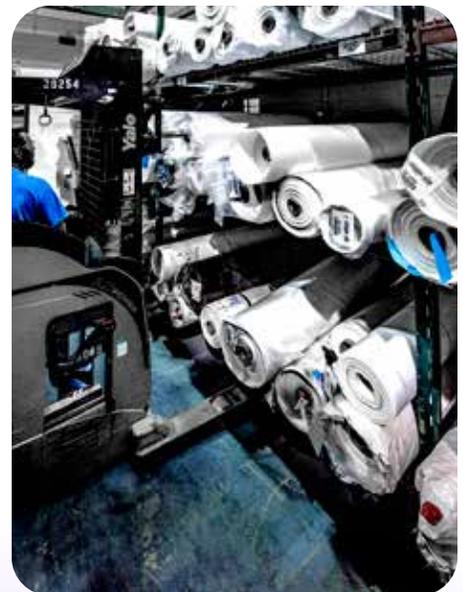

Filtration expertise with: Gold, Silver, Copper, Zinc, Nickel, Lead, Lithium, Iron Ores, Rare Earths, Alumina

WE ENGINEER OUR FILTER PRESS CLOTH FOR OPTIMUM PERFORMANCE - AND TO EXCEED YOUR EXPECTATIONS.

Chattanooga, TN, USA ▪ Trois-Rivières, Quebec, Canada ▪ Indaial, Santa Catarina, Brazil ▪ Jiangsu, China

Global, State-of-the-Art Facilities for Advanced Liquid Filtration Media Manufacturing

Global Capabilities. Unmatched Quality. Fast Turnaround. Proven Performance. Application Expertise. Cleanova Delivers.

ACCEPT NO SUBSTITUTE.

- Abrasion-Resistant for Highly-Abrasive Mining Slurries
- Suitable for High-Velocity Slurries
- Good Cake Release, Low Cake Moisture & Clear Filtrate
- Easy and Fast To Change-Out
- Longer Cloth Life
- Options for Minimizing Leakage

Benefit from High-Quality Manufacturing:

- Precision Laser-Cutting
- Welded HPR Feednecks
- Edge Sealing
- Expert Sewing
- Specialty Weaves Designed for 4000+ Cycles

We'll Help You With The Most Effective Filter Cloth Solution for Your Mining Press Operation

- MINE-XLL™ Filter Cloth for Extra-long life (Heavyweight Nylon)
- Felted Polypropylene Cloth
- Woven Polypropylene Mono/Mono Cloth
- Woven Polypropylene Mono/Multi Cloth
- Woven Polypropylene Multi/Multi Cloth
- Filter Press Cloth
- SOLAFT® PrimaPress™

Our Mining Filter Press Cloth Solutions Help to Improve Operational Efficiencies, Increase Equipment Uptime, and Reduce Environmental Impact.

ASK US ABOUT OUR TECHNICAL FIELD SERVICES, SLURRY TESTING, AND PROCESS OPTIMIZATION CAPABILITIES FOR SAFETY, SUSTAINABILITY, AND PERFORMANCE.

FILTER PRESS CLOTH

Improving operating efficiencies,
protecting the environment,
contributing to sustainability,
and ensuring a cleaner tomorrow.

Cleanova Micronics is a global leader in Pressure and Vacuum Filtration Solutions for the Mining & Mineral Processing industries. With Cleanova, you get the best filter media, advanced filtration equipment, technical field services, and spare parts, all from one single company.

From Mine Tailings Management Solutions for reducing environmental impact to Dewatering Mineral Concentrate slurries, you can count on our team's filtration solutions to support your mine's process and ESG goals.
