

# PrimaPress™

**PrimaPress™ filters – now proudly part of our global in-house manufactured filter media offerings - are a range of trusted, reliable and highly-durable filters that deliver superior wet filtration performance and which surpass industry standards.**

As with all of our other products, SOLAFT® PrimaPress™ filters are designed and crafted using premium materials and cutting-edge fabrication equipment, delivering exceptional durability and performance for demanding operating conditions.

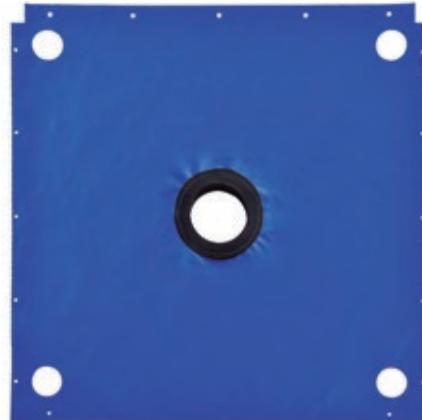

Whether with minimizing cake moisture levels or achieving precise filtration performance, PrimaPress™ filters are engineered to deliver optimum results.

## ADVANTAGES & BENEFITS

- Longer cloth life
- Greater productivity due to lower maintenance needs
- Creating right balance between filter press cake % solids and % moisture
- Lower maintenance costs due to fewer cloth changeouts

## APPLICABLE INDUSTRIES

- ALUMINA
- STEEL
- MINING
- INDUSTRIAL

## FEATURES & OPTIONS

### FABRIC OPTIONS

Available in Monofilament, Multifilament, or Mono-Multi combinations

### DESIGN

Single and multi-layer

### SURFACE / CAKE RELEASE

Quick and optimal cake release

### WOVEN MEDIA

Plain, Twill, Satin & 2-layer weave

### FILTRATE CLARITY / CAKE DRYNESS

Optimal cake moisture levels, according to customer requirements
